

ASSOCIATION OF SCUBA SERVICE ENGINEERS & TECHNICIANS

World Leaders in Technician Training, Qualifications, Codes & Procedures for Cylinder Testing and Diving Equipment Maintenance

FEATURES AND BENEFITS

TECHNICIAN TRAINING

- ✓ Tried, tested and approved training courses, provide real world knowledge & skills
- ✓ Comprehensive technician's handbooks
- ✓ Examination & certification of technicians
- ✓ Association membership & qualification grades
- ✓ Widely accepted as the best available

CODES OF PRACTICE & PROCEDURES

- ✓ Uniquely comprehensive Codes of Practice and Procedures
- ✓ Developed by knowledgeable individuals from within the industry
- ✓ The Codes complement each other and integrate with training and approval
- ✓ Produced in consultation with the Health and Safety Executive
- ✓ Easy to understand & implement

APPROVAL

- ✓ No self-certification, technicians must undergo formal training and examination
- ✓ Facilities are independently inspected and regularly re-inspected
- ✓ Overseen by a highly qualified Chief Engineer
- ✓ Equipment, calibration and documentation checked
- ✓ Confirms working to the relevant codes and standards
- ✓ Easily understood and economical to implement in the smallest workshop
- ✓ Outline Procedures ease the approval process
- ✓ Inspires customer confidence

ASSET's Mission:

- ✓ To provide credibility for cylinder testers and diving equipment maintainers
- ✓ To promote training, codes of practice and standards
- ✓ To improve the quality of maintenance and testing
- ✓ To provide technical support for members

By becoming ASSET approved, cylinder testers and diving equipment maintainers improve their quality assurance, attract more business and increase customer confidence, whilst being better able to satisfy their legal and health and safety obligations.
